|   | Inserts an emoticons image (smiley faces, email icon, lightbulb, etc.).  |
|   | Inserts symbols & special characters (accented characters, trademark, currency symbol, etc.).  |
|   | Inserts a printing page break. Only impacts printed version.   |
|   | Styles & formatting determine the appearance and semantic value of your document. You may use the drop down boxes to apply styles, set the font, its size, etc. To remove the applied style select the style name again. See <a href="#">Text Formatting</a> . |
|   | Changes the color of the text. See Size and color in <a href="#">Text Formatting</a> .   |
|   | Changes the background color of the text. See Size and color in <a href="#">Text Formatting</a> .  |
|   | Maximizes the editor size inside the browser.  |
|   | Shows where the block elements boundaries in the text.   |
|  | Shows information about the FCKeditor.   |

## Form Functions

| Toolbar Element   | Function  |
|---|---|
|  | Creates a new form block into the page.   |
|  | Inserts a checkbox to the page.   |
|  | Inserts a radio button to the page.   |
|  | Inserts a text field into the page.   |
|  | Inserts a multi-line text area into the page.   |
|  | Inserts a selection field into the page.  |
|  | Inserts a form button into the page.  |
|  | Inserts an image into the page, which behaves much like form button used to submit forms. Do not use it to insert plain images into the document. |
|  | Inserts a hidden field into the page.   |
